

BRAND GUIDELINES

The Talentral identity

Logo, colour, typography, interface
foundations and voice.

Version 1.0 · September 2026

Talentral Technologies Limited (proposed)

A person, open-armed, ready for work

The mark is the **T** of Talentral drawn as a person: arms open, head up. It stands for every learner who proves what they can do and steps into work.

The **dot** is the individual. It sits a step ahead of the arms, the way a person moves forward into opportunity.

The **gradient** is the journey the platform exists for: violet for learning, blue for proof, teal for work.

2 · Prove

3 · Connect

4 · Work

Heritage: the mark refines the June 2026 founding-partner identity, redrawn as clean vector geometry for every size, from a 16 px favicon to a building sign.

Four lockups, one mark

Primary · horizontal. Websites, documents, email signatures.

Horizontal on Midnight. Dark headers, slides, event screens.

Stacked with tagline. Covers, certificates, banners.

Mark and app icon. Favicon, app icon, social avatar, stamps.

Give the logo room to breathe

Clear space x equals the diameter of the dot. Keep text, edges and other graphics at least x away on every side.
